

Setting Up Bugherd & Raising Feedback

 <p> BugHerd. Manage your email settings Hello, YOUR NAME has invited you to join the YOUR WEBSITE project on BugHerd. Accept Invite What's BugHerd? BugHerd is an easy way for you to give feedback on a website. You just click on the web page to leave feedback as you're viewing the site. Click here for more information and a quick demo video. Not loving these emails? Manage your email settings on your account page. Powered by BugHerd. </p>	<p>You will receive an email from Bugherd.</p> <p>Press Accept Invite and you will be taken to your preferred browser to set up your account.</p> <p>Enter your First and Last name, then set a password.</p>
 <p> You're almost ready to go All that's left to do is install the BugHerd Browser Extension. Click to Install I can't install Chrome extensions What's an extension?... this thing  Also available for Microsoft Edge, Safari, Firefox. </p>	<p>You will then need to install the Bugherd browser extension.</p>
 <p>  You're ready to use BugHerd To get you up to speed we've put together a quick video. Enjoy!  Go to your organizations </p>	<p>Click - Go to your organization.</p>

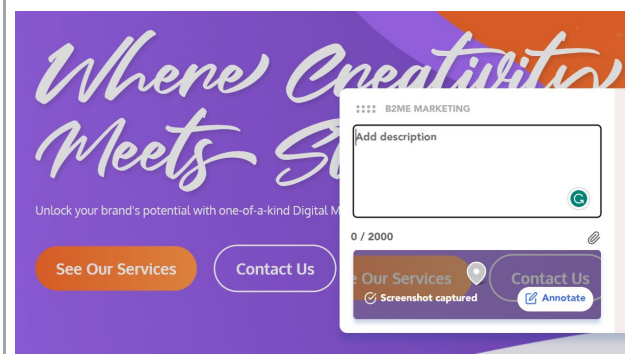

Click on your website.

Log into your website, if applicable.

Open up the Bugherd icon at the bottom right of the page.

Click on the + symbol and pin any feedback or changes you have.

When you place your pin, a popup will appear and you can add your feedback/changes.

There is also an option to annotate the screenshot that is taken when you placed your pin.

Then click Create task.
